

800 Better Bridges

Community Briefing

MoDOT Rocheport Maintenance Facility
November 12, 2009
4:30—6 p.m.

Frequently Asked Questions

1. What is the Safe & Sound Bridge Improvement Program?

Safe & Sound is an innovative program developed to replace or rehabilitate more than 800 of MoDOT's most worn-out bridges in five years. At least 100 of these bridges are to be under construction in early 2009. MoDOT will sell bonds to pay for the project, with annual payments of approximately \$50 million. MoDOT will use roughly one-third of the federal bridge replacement funds it receives each year to make those payments. The Safe & Sound program requires no additional funding.

2. How many bridges are included in the Safe & Sound program in the central Missouri area?

Ninety bridges in the central Missouri area are included in the program and scheduled for improvement within the next five years. The **Route 40 bridge over Interstate 70 in Boone County** is being featured at tonight's meeting.

MoDOT is completing 248 bridge contracts using innovative contracting methods. Other bridges are part of a design/build contract awarded to KTU Contractors to build 554 new bridges by the end of 2013 at a cost of \$487 million. All bridges in the program will be finished by the end of 2014.

3. What type of improvements are planned for the bridge featured at tonight's meeting?

The bridge deck and approach pavement will be replaced. Work will be completed within the existing right of way.

4. How will traffic be handled during construction?

To speed construction and save money, the bridge will close to traffic during construction, but ramps to and from I-70 will remain open. Traffic will be detoured around the work area using I-70. The contractor can begin the work at any time between spring and fall 2010. Once the bridge has been closed, the work must be completed within 45 days. This is a change from the original plan of completing the bridge in 65 days.

5. Who do I contact for more information?

The public is always encouraged to contact MoDOT toll free at 1-888-ASK-MoDOT (275-6636) with their questions and comments. Information about Safe & Sound and a complete listing of bridges included in the program can be found on our Web site at www.modot.org/safeandsound.

Signs Of Improvement!

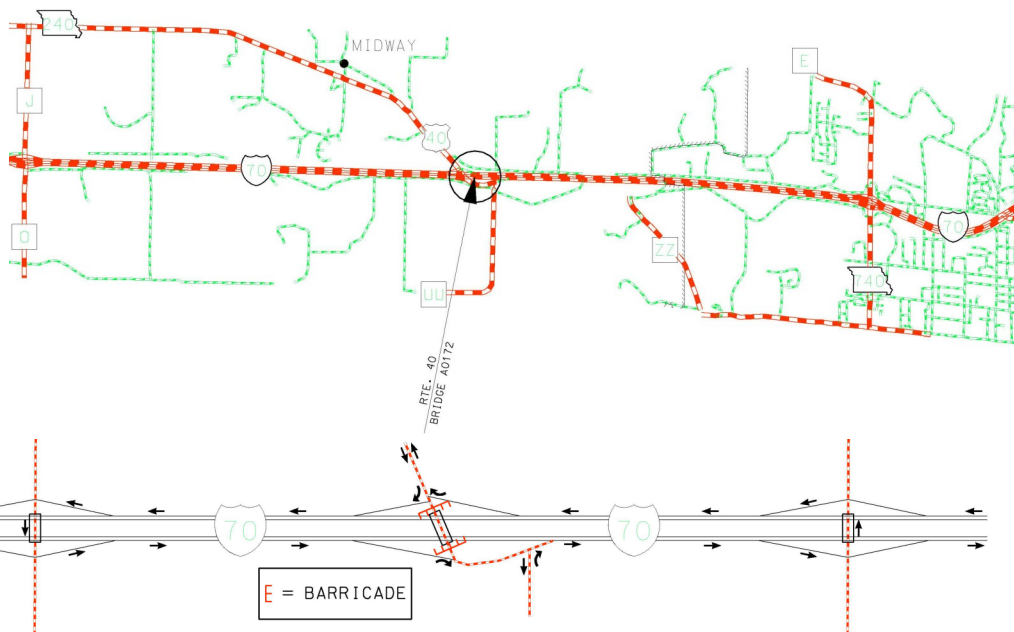

Safe & Sound signs are posted on all bridges included in the program to notify the public of bridges scheduled for improvement. Thirty days prior to the start of construction, signs displaying a brief description of the work as well as the completion season and year will be installed.

800 BetterBridges

The following bridge is being featured at tonight's meeting:

BOONE, ROUTE 40— BRIDGE OVER INTERSTATE 70

Detour

Route—

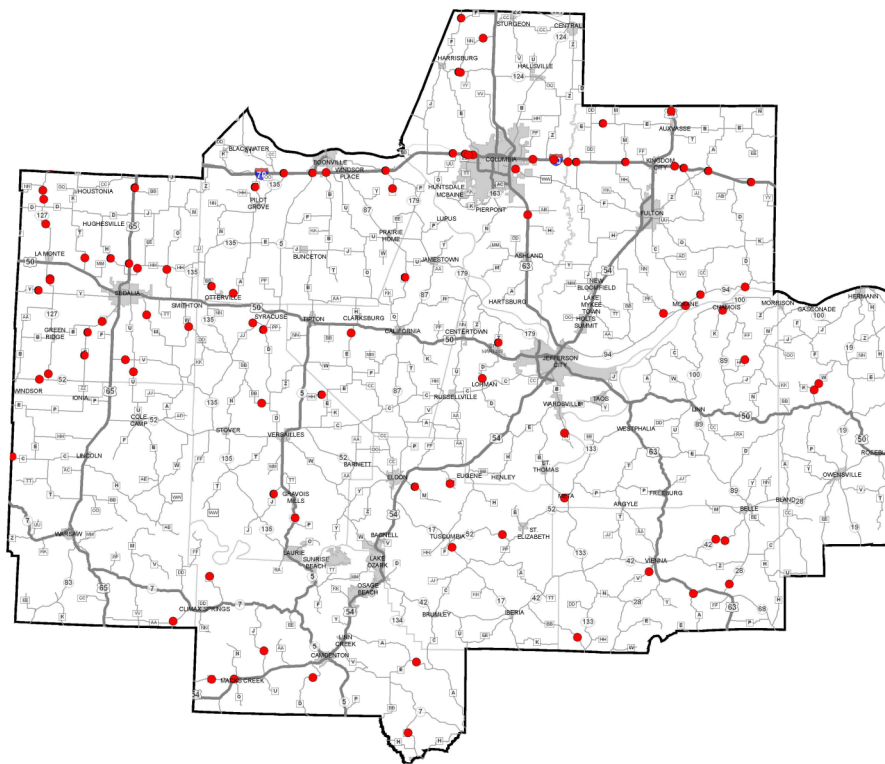

Traffic will be detoured around the work area using I-70.

Safe & Sound Bridges In Mid-Missouri

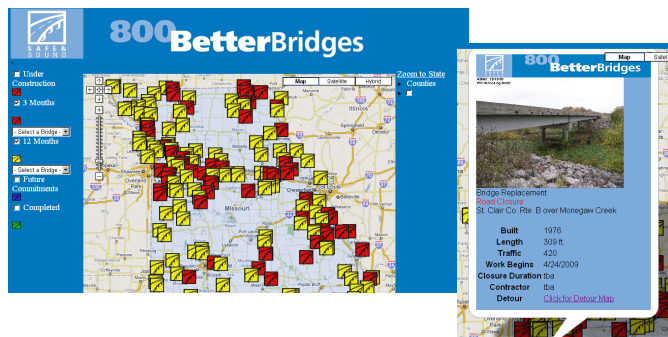

The following shows the location of mid-Missouri bridges included in the Safe & Sound program.
